## Department Rules

It's the Exhibitor's responsibility to be familiar with the [General Rules & Regulations](#) linked here which apply to all Nebraska State Fair open class departments of Competitive Exhibits and to the specific rules for each department.

### Additional Rules Specific to the Horticulture Department are:

- Competition is limited to Nebraska residents only.
- Plants entered for the competition must have been in possession of the exhibitor at least sixty (60) days prior to the Fair. Freshly potted plants will not be accepted. Any cut flowers must have been grown by the exhibitor.
- All arrangements require Nebraska-grown plant materials, fresh and/or dried. A minimum amount of tinted or painted dry materials may be used. Accessories are permitted in all design classes. Flowers fashioned from dried or treated but recognizable plant material may be used in all designs. Artificial plant material may be used only in

division 5010.

- Divisions 5019 and 5027 are classes restricted for youth who are 16 years of age or younger as of January 1. Youth may also enter any other divisions in the Horticulture Department.
- Exhibitors may enter up to three different items in the same class.
- Review receiving and judging schedules carefully. Entry check-in must be complete and in place by 9 am the day of judging. Any late displays will not be judged.
- Fruit exhibits must be correctly named as to variety, and free of insect, disease, and mechanical damage. Fruits will be judged for maturity based on the variety in this area.
- Errors in naming entries will not disqualify the entry, but correct naming is a positive for the entry if the competition is close.
- Cut plant entries should be uniform as to the length of stems and size of blooms. Pre-show preparation of cut plant material includes grooming and conditioning. Grooming means the removal of all dirt, bugs, and over-mature foliage as neatly and inconspicuously as possible. Conditioning means allowing cut stems to stand in water for several hours before they are to be used in an exhibit. Any foliage below the waterline should be removed.
- Entries in Cut Flower classes consist of one specimen, branch, or stem with a flower unless otherwise noted in class descriptions. A spray is defined as one stem, with two or more blooms, with or without side buds.
- Exhibitors must furnish presentable containers, with drainage trays, for all potted plants and hanging baskets classes.
- All hanging plants must be ready to hang. Flowering varieties should be in flower.
- Management will furnish vases for cut plant materials. Alternatively, exhibitors may use their own containers provided they are clear with their name on the bottom.
